

Give Them the Gift of Peace of Mind

Sure, giving the kids (or grandkids) the latest toy or clothing can be fun, but how many of those gifts make it more than a month or two – let alone into adulthood?

Why not give them a lasting gift that really matters – one that won't go out of style, be the wrong size or require batteries?

Protect them now and in the future with First Step term life from Grange Life:

- **Protection for now and later.** Get \$25,000 of coverage on children from 15 days old through 17 years to cover them to age 30.
- **Security that can last for life.** First Step can be converted to up to \$50,000 of permanent insurance before age 30 without medical questions or exams – to ensure your children can get affordable lifelong coverage even if they develop a health condition later (like diabetes). That means your gift could even help protect *their* children!
- **Affordable.** First Step costs just \$70/year – which amounts to just 19 cents per day! – and will not increase for the life of the policy.
- **Easy.** The application is short and there are no medical exams!

Ask your local Grange Life agent about how First Step can help protect the children in your life!

Life policies are issued by Grange Life Insurance Company, Columbus, OH, and are subject to underwriting approval. Not available in all states. For specific coverage details, always refer to your policy.
